Spotlight on SpearPolicy™

-  **Improve Efficiency & Results**
 Improve underwriting results and gain significant efficiencies by leveraging the Spear's built-in intelligent automation, advanced analytics, and artificial intelligence (AI).
-  **Embrace Your Uniqueness**
 Extremely flexible foundation allows the software to conform to your unique business processes including extensible interfaces, API's, work automation, and unique workflows.
-  **Dig Deeper Into Analytics**
 Tap into your historical data and uncover trends and patterns to reveal insights that your staff can use to improve results, price competitively, and make better business decisions.
-  **Get Ahead of the Pack**
 Your technology platform should be propelling the business forward, not holding you back. SpearPolicy™ delivers virtually every tool and capability your business needs to conquer tomorrow's challenges today.

SPEED. CONTROL. RESULTS.

Feature Highlights

▶ ALL-IN-ONE POLICY MANAGEMENT

Full policy lifecycle management capable of supporting automated decision making, sophisticated workflows, and seamless experiences with your brokers, agents, and policyholders.

▶ AUTOMATE UNDERWRITING

Use built-in data analytics to evaluate and approve policy applications with little, or no, human underwriter involvement based on your unique business rules and tolerances.

▶ BUILT-IN ARTIFICIAL INTELLIGENCE

Use AI to analyze large amounts of data to accurately assess risk, determine eligibility, uncover trends, and even help author messages and letters during the process!

▶ FLEXIBLE RATING MANAGEMENT

Manage and maintain your rating algorithm to account for both immediate and future adjustments with an easy to use configuration interface and flexible design.

▶ SELF-SERVICE PORTAL

A native portal designed specifically for agents and insurers to self-serve. From new business submissions to first notice of loss, file downloads to real-time chat (or even chatbots!).
